

REMARKS/ARGUMENTS

Applicant acknowledges with thanks the allowance of claims 1-18 in the present application. Applicant responds to the requirements in the Office Action dated February 12, 2004 as follows.

Drawings

New corrected drawings are required to make the drawings formal. Applicant submits with this response new formal drawings. Entry is respectfully requested.

Specification

The Office Action states that the title of the invention is not descriptive and requires a new title that is indicative of the invention to which the claims are directed. In response, Applicant amends the title of the invention to read CLOSED LOOP ACTIVE EMI FILTER FOR REDUCING COMMON OR DIFFERENTIAL NOISE BASED ON AN ERROR VALUE. Applicant submits that the new title is clearly indicative of the subject matter to which the claims are directed, and respectfully requests that the objection to the specification be reconsidered and withdrawn.

Conclusion

In view of the above amendment and submissions, Applicant respectfully believes that the application is now in condition for allowance, and earnestly solicits notice to that effect. Applicant requests that the Examiner contact the undersigned counsel at the number provided below concerning any outstanding issues with respect to allowance of the application.
